PROFILE

Second-year Data Engineering and Decision Systems student with strong communication and data analysis skills, passionate about innovation and creativity.

Motivated and dynamic developer seeking summer internship in Artificial Intelligence Data Engineering.

EDUCATION

2024 - present: Data Engineering and Decision Systems at (ENET'Com SFAX)

2021 - 2024: Bachelor's Degree in Business Computing - (FSEG SFAX)

(Honors: High Distinction)

2020 - 2021: Baccalaureate in Experimental Sciences - (Lycée Mongi Slim)

(Honors: Distinction)

PROFESSIONAL EXPERIENCE

ACTEOL Company, Sfax (Summer Internship)

July – August 2025

- Business Intelligence Solution: Data Warehouse and dashboards for Wide World Importers.

Keywords: *BI, Microsoft, SQL Server, SSMS, SSIS, Dashboard, ChartJS.*

INCENDO Company, Sfax (Final Year Internship) – Best Internship Award (UnivExpo – 26th Edition) Feb – May 2024

- Implementation of a CQRS architecture to optimize the management of a product and service e-commerce platform, using a microservices approach with separate read and write modules.

Keywords: *CQRS, Microservices, Spring Boot, VueJS, MongoDB, PostgreSQL, Apache Kafka.*

PROJECTS

Deep Learning Project: Liver Tumor Segmentation

November 2025 – April 2026

- Design of a medical data processing pipeline for liver tumor segmentation from CT scans.
- Implementation of a U-Net model with PyTorch for multi-class segmentation.
- Management of volumetric data using a 2.5D approach (stacking of adjacent slices).
- Evaluation of model performance using segmentation metrics (Dice coefficient, IoU).

Keywords: *Deep Learning, Data Engineering, PyTorch, U-Net, Segmentation, Medical Imaging.*

Web Scraping Project – Tayara.tn (Vehicles Category)

October 2025

- Development of a web scraping tool in Python (Beautiful Soup, Scrapy) to collect and analyze web data.
- Technical analysis of the target website and identification of HTML selectors.
- Implementation of modular code with separation of concerns (extraction, parsing, storage).
- Structuring and saving collected data into a tabular database.

Keywords: *Web Scraping, Python, Beautiful Soup, Scrapy, Data Extraction, Data Processing.*

ASSOCIATIVE LIFE & VOLUNTEERING

Best Innovative High-Tech Idea Competition by PAQ
DGSE - FSEGS: 2nd place (2023/2024)

Microsoft Tech Club FSEGS: General Secretary (2022/2023)

Microsoft Tech Club FSEGS: Designer (2023/2024)

Tunisian Red Crescent: Volunteer (2021 - present)

SKILLS

- **Programming Languages:** Python, Java/JEE, C#/.NET, PHP/Symfony, C, JavaScript, Bash, HTML5/CSS3, XSLT.
- **Frameworks & Libraries:**
 - Data Science: NumPy, Pandas, Matplotlib, Scikit-learn, PyTorch.
 - Web: Bootstrap, Symfony.
- **Databases:** PostgreSQL, MySQL, Oracle (Relational); MongoDB, Firebase (NoSQL).
- **Big Data:** Hadoop (HDFS, MapReduce), Apache Kafka.
- **Architectures:** Microservices, CQRS.
- **Mobile:** Flutter (Dart).

CERTIFICATIONS

- European Communication Certificate – ID: ECo-CMA100001520.
- EF English Certificate – B2 Upper Intermediate: EF Standard English Test.
- DataCamp – Data Literacy – ID: DL0039477439270.
- DataCamp – Ai Fundamentals – ID: AIF0023371800098.
